DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Monday, 21 December 2020 at 01:17 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Changeable, breezy and often rather wet conditions arriving from the Atlantic should help keep air pollution levels Low across the UK.

Tomorrow: Air pollution levels should remain Low for most areas, although light winds in some central and southern parts may lead to local Moderate air pollution levels.

Outlook: Mainly Low air pollution levels are expected throughout, although light winds in central parts starting this period may lead to further local Moderate levels here initially.
